

SUPERINTENDENT'S CORNER

As we prepare for the winter season weather, I would like to notify our parents/guardians of the different avenues available to them that the school districts uses to notify parents of changes in the normal operations of the school district (ie. school closure, delays in start times, early releases or changes in the extracurricular schedules). My goal is to disseminate information to our parents/guardians as quickly and efficiently as possible. There are several ways we will do this; we will place the announcement on the front page of our district web site at: www.mtvernonisd.com;; we will also place the announcement on our new facebook page at <http://www.facebook.com/Mt.VernonISD> You can also listen to 95.9 FM/96.9 FM, 104.7 FM, 960 AM. We will also use the local television channels, and when possible, we will also use our marquee on Highway 37. With your help and assistance, we hope to be able to minimize the inconvenience place upon our parents. Thanks for your assistance and understanding.
